

Your decision for big media corporations to have the chance to control media outlets with an iron fist, has effectively brought an end to democracy to our country. You 3-2 (3 members GOP, 2 members democrat) shows the American people just how much the Republican Party does not care one bit about the American people, but only of the American dollar, and anyway possible of obtaining wealth and power in this country. I would say you should be ashamed of yourself, but why would you be? Your making perhaps millions of dollars for making such a deal. I wonder? How much is ClearChannel, Viacom, GE, Disney, AOL TimeWarner, etc. paying you all for your vote against democracy and the freedom of speech? I am ashamed of the FCC and the gross negligence that has came from your lack of integrity and lack of morals, and lack of our basic freedoms has Americans. Sleep well....your making good money from selling the soul of our nation to the warmongers, chickehawks, and everyone else who sees into making this country one large police state.
